In order to give you some freedom and choice in your activities during days that we are on distance learning, I have created an activity grid! You should choose one of the assignments above to complete for each day of your class time. The next day, you may choose another BUT it must be in the same column, row, or diagonal (think BINGO). When you complete your assignment, **be sure to include the number of the assignment you chose**. This page should be kept in the front of your folder. When an assignment is completed, circle it on your grid. Do not do the same assignment more than 1 time. You should have 1 assignment done for each day we are on distance learning.
